

PALLET STATIC STORAGE STAND (PALLET STACKER)

LINEMA PSM-08

MAIN NOTES

- Are suitable for stocking of ULD containers/pallets up to the base plate size of 2438 x 3175 mm (96"x125")
- Pallet stands are suitable empty as well as fully loaded ULD containers/pallets up to their maximum gross weight 7 000 kg.
- Pallet racks have a light structure.
- The reference platform height is 508mm/20", which makes the racks compatible with all GSE handling equipment (containers dollies, pallet trailers, highlift loaders, etc.)
- The pallet racks are completed with adjustable legs for levelling and elimination of terrain unevenness.
- The pallet racks can be connected into rows and create rackfield.
- LINEMA PSM08 meets all IATA AHM requirements.
